ELEGANT DESIGN MAKEUP MAGNIFYING MIRROR LIGHT

Use the small magnifying mirror to perform details tasks like tweezing. Position the mirror along the inside edge of the door for easy viewing.

What Is The Use of A Magnifying Mirror?

There are two types of magnifying mirror:
External and built-in

OPTION A:

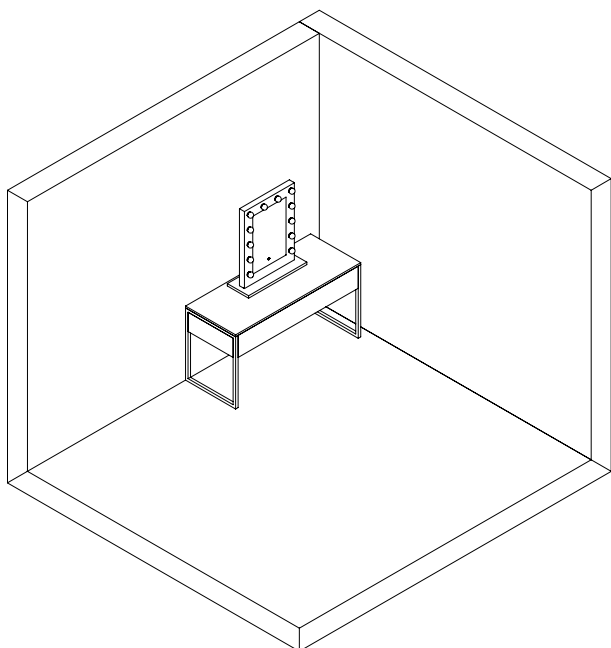

External, also called portable. An external magnifying mirror is optional for mirrors. Can be moved or removed easily by magnet but the external magnifier is without light.

OPTION B:

Built-in. Small built-in magnifying mirrors, in genuine design options either round frosted illuminated or non-illuminated scheme. And it can't be moved. Liteharbor will provide a customized service so that you can customize the magnifying glass according to your needs.

What Is The Size of The Magnifier?

Liteharbor offers magnifying mirror of diameter 120mm, and 3X and 5X magnification so you can see your entire face clearly, can ensure you makeup always looks fabulous.

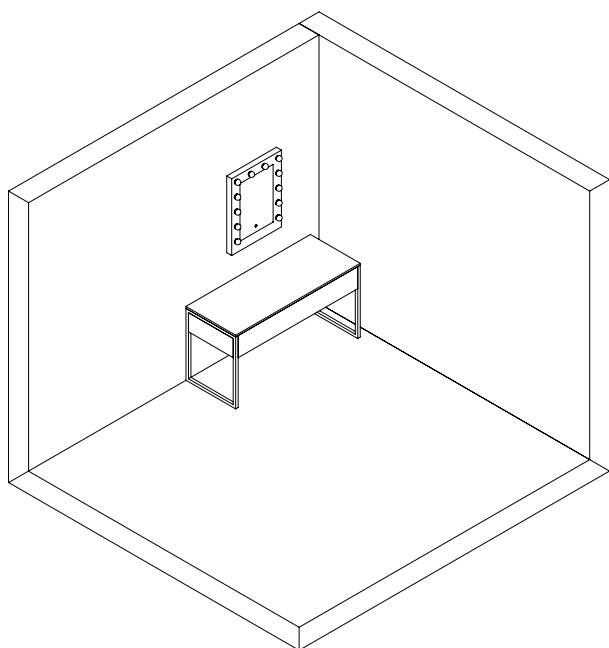

DESKTOP MIRROR:

No need to install, directly place on the desktop, just plug in the power supply can be used.

Low voltage power supply, improve safety factor and avoid the risk of electric shock.

Movable luminaires: In normal use, the luminaires can be moved from one place to another after being connected to a power source.

The mirrors can be moved according to actual needs for ease of use.

WALL MOUNTED MIRROR:

The wall is fixed to reduce the space occupied by the desktop.

Low-voltage power supply improves the safety factor and avoids the danger of electric shock.

The portable installation structure can be quickly installed.
